Civil Works Roads

PROJECT NAME

Munnik Mooketsi Road P43/2 Road
Detail Design C083

CLIENT

ROAD AGENCY LIMPOPO
Contact: Mr S Phupheli
(012) 348 5880

VALUE OF WORKS

R 9.8 million

DATE

January 2003 to February 2004.

PROJECT DESCRIPTION

The project consisted of repairs to damaged sections by patching as well as edge break repairs, cold in-situ recycling of +3.6 km and resealing using 19/9.5mm double seal and gravel shoulder construction with side drains between Munnik and Mooketsi. Resealing of 3.8km using 13mm single seal. Construction of 1.55km of guardrails and Asphalt overlay along the mountain pass.

SALIENT FEATURES

The road is characterized by a mountain pass and a settlement (Sekgopo) at km5.6 and km9 respectively. It forms an important link in the road network of the Limpopo Province and is subjected to heavy traffic. Traffic accommodation as a constant threat and the associated accidents that occurred during construction.
